Dear Chairman Genachowski:

I'm writing to ask that you act on the Wright Petition to cap inmate telephone rates and thereby stopping the exploitation of prisoners and their loved ones.

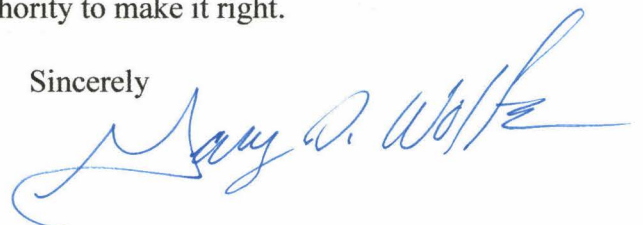

I have been incarcerated for over 35 years and for the last 20 years or so my family and I have been forced to pay exorbitant telephone rates. There was a time when rates were reasonable and I could call home without it being a financial burden on myself or those I called. In the late 80's the Michigan Department of Corrections figured out that this vital service could be exploited to reap huge financial profits for their budget.

Over the years I have lost contact with many distant relatives, friends and loved ones due the high cost of our telephone calls. Considering that the actual cost of a fifteen minute call, according to Michigan's latest inmate telephone contract, is only about \$0.75, it's outrageous that an additional charge of \$2.50 is added to the price of each call for the MDOC and telephone provider to pocket as pure profit. We are even required to pay a 6% "telephone" tax on this portion of the charge despite this charge having nothing whatsoever to do with the cost of providing the telephone service.

The telephone company, in this case, Public Communication Services (PCS), generates more profits from their cut of this added charge than they do from providing the actual telephone service.

Budgets for prison operation are supposed to come through general appropriation. The cost of running our prisons should be borne through taxes imposed equally on all the residents in the state. To target a particular class of people, especially those who are struggling and can least afford it, is outrageous and should be stopped. It's the right and fair thing to do. Legislatures and local governments will not stop this because the financial incentive is far to great, and it also makes them look tough prisoners. But it is our families who pay 90% of these charges, and they haven't done a thing to deserve this treatment. They deserve better, and you have the authority to make it right.

Sincerely

Dear Chairman Genachowski,

I am writing to your office to explain the impact of high costs for telephone calls on me and my family. In the California Dept. of Corrections, the cost of a telephone call to one of my family members is very high. Consequently, I am not able to call family members as much as I would like, because they cannot afford to pay for the collect calls.

Due directly to the lack of telephone calls to my family, my relationships with my family members has deteriorated, over the last several years. My family members cannot afford to pay the high collect costs associated with the California Dept. of Corrections, at the holidays, i.e., birthdays, anniversaries, etc.

My mother is in her 70's, consequently, she lives on a fixed limited income. Most of her income is committed for her primary needs, i.e., housing and food. There is no funds left to help fund secondary needs, such as collect telephone calls from me.

I have lost complete contact with my daughter, Misty, due directly to the high costs of collect calls, that she cannot afford to pay. My daughter lives out of the state of California; consequently, the wages she is able to earn are not very much. Moreover, the financial hardships America is experiencing in the present time make it even harder to keep in contact with family by collect telephone calls.

I have lost complete contact with my niece, Amanda, due directly to the high costs of collect calls, that she cannot afford to pay. My niece lives outside of California.

I would request your office carefully consider the Wright petition.

Thank you for your time and consideration.

Sincerely,

Bobby S. Janoe

Dear Chairman Genachowski

I am an inmate at FMC Devens.

I have been incarcerated for 4 years.

My wife is several hours away and I

have a 12 year-old son. I call home

2 times a week. It cost me 30.00 dollars

a month. Medically I can't work so I

count on money sent from home. My wife

doesn't make much and can only send a little.

My Parents are retired and can't send much.

I call them only 1 month. I can't afford

to call more. I wish I could call my son

more but it's too much. I'm lucky I

can call as much as I can. I never

call my brother or sister or friends.

There is just not enough money. I wish

I could call. It is so good to hear

a friendly and encouraging voice. It keeps

me going. If I could call more it

would help me keep connected to the

outside where I will return

Thank You
